

## "Synergy 2022-Tech Festival" (30.08.2022)

It is often said that "An idea can change your life!" But that's too myopic - perhaps a beautiful marketing gimmick at times. In my humble opinion, "An idea can really change the world!"

In today's world of 'Design Thinking', one needs to synergise three segments - 'Human Psychology', 'Technology' and 'Society', and one of the latent yet critical components of this synergy is 'Ideation'. An idea can really transform the world completely. The invention of 'Sewing Machine' is a case in point. It is not only heralded in the 'Textile Revolution' but also in 'Industrial Revolution'. It influenced the role and status of women, modernised the garment industry, turned around the shoe making & upholstery, and revitalised the world permanently.

I must say that Synergy 2022, the two days Mega Tech Festival organised by SGT UNIVERSITY (where I was Chief Guest of the event) really served as Test Beds for the buzz word Innovation, calling its students to express, design and demonstrate, this very idea. The university deserves praise for not only architecting the event well in terms of both its context and content, but also creating an environment of positive energy, dynamism and impact in its campus. The linguistic, ayurvedic, media, forensic, life & health as well as engineering sections I visited were effective to even generate bewildering expressions at times. Socially relevant Nukkar Nataks added an extra flavour. I returned back to my office a contented enriched man at the end of the day.

I encouraged students to generate disruptive ideas for innovation, question the accepted norms, and never hesitate in asking questions per-se (no matter how stupid they are perceived). As future potential founders, they were advised to 'start up' well, 'stand up' firm during incubation process and 'stay up' permanently as a pillar of strength for others to emulate. Most importantly, I urged them not to focus on getting richer quickly. Discouraged them to take short cuts (as no one dies of hard work). Those founders who fell short of ethics, integrity and empathy, do extreme disservice to not only themselves, Venture Capitalists, Investors, own nascent organisations, and the nation but also to an overwhelming majority of genuine founders having aspirations to transform this society.

If you wanna kill your valuable time, you may see the YouTube link as follows :) <https://lnkd.in/dfuSaA4d>

Jai Hind

The poster for Synergy 2022 features a dark blue background with a glowing blue and purple atomic-like structure on the left. At the bottom, a futuristic robotic hand is shown. The text is in white and yellow. The SGT University logo is in the top left. The main title 'SYNERGY 2022' is in large, stylized letters. Below it, the tagline reads 'A Platform for Promotion of Innovative Ideas & Interdisciplinary Research'. The event details for the Inaugural Ceremony (23rd August 2022) and the Valedictory Ceremony (24th August 2022) are listed, along with the names and titles of the Chief Guests and Guests of Honour.

**SGT UNIVERSITY**

**SYNERGY 2022**  
A Platform for Promotion of Innovative Ideas & Interdisciplinary Research

**INAUGURAL CEREMONY**  
23<sup>rd</sup> August 2022, SGT University

**Chief Guest**  
**Dr. Rajeev Kumar Mehajan**  
Scientist G and Advisor  
Science and Engineering Research Board

**Guest of Honour**  
**Dr. Hemant Gautam**  
Chief Scientist and Professor,  
CSIR-Institute of Genomics  
and Integrative Biology

**VALEDICTORY CEREMONY**  
24<sup>th</sup> August 2022, SGT University

**Chief Guest**  
**Dr. Mukesh Kumar**  
Scientist 'G' & Head,  
International Health & Human Resource  
Development Division,  
Indian Council of Medical Research

**Guest of Honour**  
**Mr. Brajesh Kumar Poddar**  
CEO, Instrumentation Automation  
Surveillance & Communication  
Sector Skill Council
