

**PREDATOR**  
(22.01.2023)

Has Jantar Mantar failed,  
in gaining empathy with  
What wrestlers acclaimed  
Is it always an elusive take,  
Despite the predicament  
of the victims at stake  
and then some would claim  
That victim card was played

If the allegations are true  
Does it amount to exploitation  
or is the universe again helpless  
In this raw ruthless predation!

So are humans any better?  
Perhaps at their worst  
The animals kill for survival  
For humans its thrill n trial  
...Or hardly any difference...  
When it comes to oppression  
The Dominant eats the weak  
and hunts for the Prey  
Despite how well he prays!

Just to fulfil voracious greed  
The authoritarian doesn't care,  
about mutual existence  
robs him of the right to life  
and ill-treats his subsistence!

Is exploitation a moral notion  
or a mutually beneficial lotion  
Does it mean unfair advantage  
to the exploiter, and harm to the vulnerable  
exploited,  
Even if it benefits the victim,  
Should an exploiter be awarded!!

Do I sound a bit cynical?  
The issue is not just clinical  
It has surgical dimensions  
from the ability to prolong life,  
to kill with unparalleled efficiency  
...killing instincts & inventions

In this life drama of deeds  
Where do you really stand!  
Are you just a Prey or  
a settled Predatory beast?  
A hard hitting question indeed!  
Is it difficult to realise...  
you are on a role reversal  
swiftly changing over sides  
simply to be safe and thrive!
